GREAVES'S BLUE LIAS LIME and CEMENT.—AGENTS.

Messrs. Freeman and Richardson, 6, South-wharf, Paddington.
Mr. T. Wylie ..... Liverpool.
Wm. and E. Knight ..... Manchester.
Mr. A. Brown ..... Glasgow.
Mr. J. Harrison ..... Carlisle.
Mr. E. Cruse ..... Oxford.
Glebe, Common, and Cast-Glazed Pipes, Bricks, &c.

TO BUILDERS, CONTRACTORS, AND OTHERS.

GREAVES'S BLUE LIAS LIME and CEMENT, direct from the works, Stockton.—MUTTY and VERRY beg to inform the Trade that they continue to supply Blue Lias Lime and Cement as usual at No. 8, Wharf, Paddington, only. Also Glaze Drain Pipes.—N.B. No other lime kept at the wharf.

BELL'S PATENT LIQUID CEMENT is ready for use, and only one-eighth the cost of oil-paint. For beauty it is pre-eminent, giving the exact appearance of FINE CUT STONE. Can be used as once on fresh Roman Cement, or any other plastering, and will protect the walls as well as Roman Cement. In casks of 1, 2, and 3 cwt., at 8s. 12s. and 21s., casks inclusive.

PATENT MINERAL PAINTS.

Invaluable for cheapness, beauty, and permanence: not half the cost of other paints, always ready for use, will keep good for years, and therefore well suited for exportation. Brilliant black, 8s.; rich browns, 8s. 6d.; greens and light colours, 4s. per gallon.

G. BELL and Co., 9, Wellington-street, Cornwall-street.

JOHNS and Co.'s PATENT PERMANENT STUCCO WASH, CEMENT, and PAINT.—The attention of the trade and the public generally is solicited to these very celebrated and well known materials, which, for their beauty, durability, imperviousness, and cheapness, are unequalled. THE PERMANENT WASH, as a substitute for common lime-wash or water-colour, is an article which has long been wanting for stucco and brick-work: it is of a stone colour, but may be tinted to any other; is perfectly dry in twenty-four hours; will not wash off; is very little dearer than the common washes; and, being a non-absorbent, is admirably adapted for railway stations, gas-works, warehouses, suburban terraces, &c. One cwt. is sufficient to cover, with two coats, 25 square yards. THE CEMENT, from the great reduction in price, and its suitableness for internal as well as external surfaces, places it above all other materials of its kind: it has no caustic qualities; may be painted or papered in a few days; never blisters, cracks, or vegetates; sets becomes as hard as stone; and may be cleaned with a brush and water. The merits of the PAINT are well known for its application to stucco work of all kinds, and a trial will satisfy generally. Numerous testimonials, prospectuses, and every information may be obtained, on application to the sole Agent, PHILIP HAKE, at the Warehouses, 38, Steel-yard, Upper Thames-street. A liberal allowance to wholesale dealers.

MARTIN'S PATENT

FIRE-PROOF AND ORNAMENTAL CEMENT,

APPLICABLE FOR

ALL INTERNAL PURPOSES WHERE PLASTERING IS REQUIRED.

This invaluable Cement has now been before the public so many years, and obtained such a standing in the estimation of all who have used it, that it is unnecessary to recommend on its merits. Messrs. STEVENS and SON, however feel called upon to observe, that, from the greater extent of surface which a given quantity of MARTIN'S will cover, as compared with other Cements for internal use, there will be found a gain of 14l. per cent. in material, 2l. 7 per cent. less in price, with an additional saving in labour of 15 per cent., by its allowing about forty minutes for working, being less than one-tenth of the time of other cements of a similar nature, therefore worked with greater facility, making together the enormous saving of full THIRTY-THREE PER CENT.; its advantages therefore cannot admit of doubt. Specimens, showing its beauty, hardness, and applicability to all plain and ornamental purposes, may be seen; and the Cement in any quantity, obtained of Messrs. STEVENS and SON, at their Plaster and Cement Works, 198, Drury-lane, London.—Manufactory, Derwent Mill, Derby.

N.B. This Cement will receive paint or paper in a few hours after the completion of the work by the plasterers.

THE PARIAN CEMENT, for INTERNAL STUCCO.

No. 4, Porchester-terrace North, Paddington,
15th February, 1850.

Dear Sirs,—I have been reluctant to speak to the merits of Parian Cement, until sufficient experience enabled me to do so. As an extensive builder I have given it many trials, and now bet to express my perfect satisfaction with it. The house from whence I date was first inhabited by me on 7th September last, and a brick having been laid before the 1st of June—that is to say, in three months and one week—I measured the walls throughout with Parian; papered some, painted and marbled others; and the whole work from first to last performed within that hour. I need say no more—I am, Gentlemen, yours respectfully,

WM. SCANTLEBURY.

Messrs. Chas. Frances and Sons, Nine Elms.

ATKINSON'S CEMENT.—This Cement has hitherto been manufactured in Yorkshire, and, through some detention at sea, has often proved stale and unfit for use on its arrival in London. By the arrangement now made, the Cement will be manufactured in London, and thus presented to consumers in a fresh and genuine state, by the sole Agents, J. B. WHITE and SONS, Millbank-street, Westminster.

PORTLAND CEMENT, as manufactured by J. B. WHITE and SONS, possesses all the properties of the best Roman Cement but has the advantage over that material of wholly resisting frost. When used as a stucco it does not vegetate or turn green in damp situations, and requires no colouring. Employed as an hydraulic mortar for brickwork, it carries four to five measures of sand to one of cement, and is proved by trial to become harder and stronger in these proportions than Roman Cement with but one measure of sand. This superior cementing power, combined with its eminently hydraulic properties, point it out as the finest material for building sea and embankment walls. Its tinting of mortars, cements, and bricks, and for all those purposes where strength and a perfect resistance to water are required.

Manufacturers—J. B. WHITE and SONS, Millbank-street, Westminster, and 36, Bevi-street, Liverpool.

PORTLAND CEMENT, solely MANUFACTURED by WILLIAM ASPDIN, Son of the Patentee.—Messrs. ROBINS, ASPDIN, and Co. request reference to No. 256, page 491; and also Nos. 264 and 265, pages 563 and 591 of "The Builder," for accounts of EXPERIMENTS on the strength of Portland Cements, whereby the great superiority of their Cement is manifest. This Cement has been proved for upwards of twenty years in the Thames Tunnel to resist the action of water; it is stronger in its cementitious qualities, harder, and more durable than any other description of Cement; it does not vegetate, crystalize, or turn green: nor is it affected by any atmospheric influence whatever the climate, resisting alike the action of frost and heat. It is manufactured to set in from 5 to 60 minutes. For all purposes that Cement is applicable the Proprietors challenge competition.—Orders received by Messrs. ROBINS, ASPDIN, and Company, at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland-yard, Whitehall; also at their Depôt, 46, Hanover-street, Liverpool.

KEENE'S and PARIAN CEMENTS, for internal stucco, are employed very advantageously in place of wood for skirtings, architraves, and panel mouldings, and for tiled floorings, instead of stone. The peculiar properties of PARIAN Cement allow of its being painted or papered upon within a few hours of its application, and thus render it an important substitute for common plastering in those cases where expedition and beauty of finish are essential.—J. B. WHITE and SONS, Millbank street, Westminster, Patentees of KEENE'S Cement. Licensees of PARIAN Cement.

KEENE'S MARBLE CEMENT.—A new application of this beautiful material renders it useful and durable EXTERNALLY either as a substitute for pure statuary, or the most rare and valuable coloured marbles, with lasting polished surface, representing the use of Scagliola, and other similar imitations in appearance, durability and cost. CAPITAL REQUIRED.—Address, K. K. C., Office of "The Builder," 8, York-street, Covent-garden. N.B. Specimens are in course of preparation for the Exhibition of 1851.

BLUE LIAS LIME, PLASTER, &c.

THOMAS FREEN and CO. having connected with their ROMAN CEMENT WORKS an extensive Manufactory of GROUND BLUE LIAS LIME and PLASTER of PARIS, beg to call the attention of Builders and others to the very superior quality of these articles, which they are prepared to supply on the most reasonable terms.

WORKS—Tuscany Wharf, Regent's Canal, Kingsland-road, London.

DEPOTS—Lee's Wharf, Paddington; and Phœnix Wharf, Greenwich.

N.B. Grey and Chalk Lime, Paving Bricks, Tiles, Artificial Stone, Plasterers' Hair, &c. &c.

TO ARCHITECTS, BUILDERS, &c.

ALL descriptions of TERRA COTTA, CEMENT, and PLASTER CASTINGS executed in a first-rate manner, on reasonable terms, by J. HERBERT and SON, Modellers, &c., 42, Porter-street, Drury-lane. A splendid assortment of Corinthian, Ionic, and other Capitals; Centre Flowers, Balusters, Trusses, &c.; Elizabethan and other Chimney Shafts.

CEMENT, PLASTER, and COMPOSITION ENRICHMENT MANUFACTORY, 18, Crown-street, Finsbury-square, London.—WM. SMART, Jun., begs to inform architects, builders, and the trade that he is prepared to execute works of any magnitude in first-rate style and finish at very low charges. Architects' designs carefully modelled and truthfully carried out, and estimates given on receipt of detailed drawings. &c.—Wm. SMART, Jun., ARCHITECTURAL MODELLER and ORNAMENTIST, 18, CROWN-STREET, FINSBURY, London. Established in the family three-fourths of a century.

TO MASONS.

REDUCED PRICE of MARBLE SLAB.—The LONDON MARBLE AND STONE WORKING COMPANY continues to sell Slab, of superior quality and well sawn, at their Manufactory, ESHER-STREET, near Millbank, Westminster, at the following reduced prices, viz.:—

½ inch, at 1s. 2d. per foot.
1 inch, at 1s. 4d. "

VEINED MARBLE.—TO MASONS, BUILDERS, &c.—NOW on SALE, at the Marble and Wood Sawing Mills, Commercial-road, Pimlico, The largest STOCK in London of VEINED MARBLE in SLABS, at the following low prices for Cash:—

1 inch ..... 1s. 2d. per foot super.
½ inch ..... 1s. 4d. "

Sawing, 5d. per foot super, fetched and delivered; Bardilla, Dove, Black, and Gold Statuary, and all other Marbles in general use, in slab and block, equally low.

SAMUEL CUNDY, Mason and Builder, PIMLICO MARBLE and STONE WORKS, Belgrave Wharf, Pimlico.

GOTHIC WINDOWS, ALTAR SCREENS, and other Works produced at a remarkably cheap rate.

FONTS from 3l. upwards. Specimens on view of the Early English, Decorated, and Perpendicular styles.

ALTAR TABLETS illuminated.

First-rate ARTISTS retained for SCULPTURED GOTHIC CARVINGS.

MEMORIAL CROSSES, MONUMENTS, TOMBS, HEAD-STONES, &c., in great variety of design. Letters cut and complete for fixing in the country.

The Public are respectfully invited to view the carefully selected and manufactured Stock (by improved machinery) of Veined Marble Chimney-pieces—cheap and good.

DAIRIES fitted up with MARBLE or SLATE SHELVES.—MINTON'S Encaustic and White or Blue and White Porcelain Tiles in great variety of pattern.

A GOOD MARBLE CHIMNEY-PIECE FOR FORTY SHILLINGS.

A liberal discount to the trade.

LLEWELYN and BANGOR SLATE COMPANY.—On the Cost Book Principle.

The Llewelyn Quarry is a part of a set of thirty acres in the parish of Llanllechid, Carnarvonshire, at the base of the Llewelyn mountain, 4it rises from the port of Bangor. A lease of which, for twenty-nine years, has been secured at the usual royalty. The set comprises twelve acres of slate, and about twenty acres for the deposit of waste, and adjoins the estate of Colonel the Honourable Edward Douglas Gordon Pennant, M.P. The slate bed, or lode, being a continuation of the great roofing slate formation worked by him at the celebrated Penrhyn Quarry, from which the Llewelyn Quarry is distant about half a mile. It will be a matter of surprise to the public to find that a quarry immediately adjoining the Penrhyn Quarry, which for the last twenty years or more has yielded a profit of upwards of 80,000l. per annum, should now be in the market: the circumstance is, however, thus accounted for.

In the valley at the foot of the Penrhyn Quarry, close to the river Ogwen and the turnpike-road, the course of the slate has been diverted from a straight line by the uprising of a huge mass of green stone, throwing a portion of the slate bed or lode, which is here about 300 yards wide to the north-west; this western branch passes under the village of Bethesda, close to which are the Pandrancour and Cwtmor Quarries, now in full operation; the other portion of the bed keeps its original course, about north east, and dips under a lofty ridge of Killas or Clay Slate, and has hitherto been lost to the miner and geologist. It has, however, lately been discovered, that on the north side of this Killas ridge the roofing slate lies only about four fathoms below the surface. The discovery was made a few weeks since by sinking a shaft about two-thirds down the slope of the ridge or mountain, below which point there is sufficient fall for the deposit of waste, and every facility for working a quarry on an extensive scale. The slate is of the finest quality and colour.

In three months sufficient Slate Rock may be cleared of the over-lying Killas to supply from 50 to 100 quarrymen and Dressers, and a further extent of ground progressively opened. The adits to the Llanllechid and Penrhyn Quarries leave a profit of at least 100 per cent on the labour cost; and this Quarry when opened, if worked with skill and energy, cannot fail to be equally profitable. This important discovery it is now proposed to work out by a Company in 3,000 Shares of 1l. each; Deposit 1l. per Share a portion of which has already been taken. It is estimated that 20,000l. may ultimately be required to develope the resources of this extensive and valuable set; but, in accordance with the cost book principle, no call can be made without the sanction of a majority of the shareholders. For the remaining Shares and Prospectus application to be made to Mr. T. Ursell, Broker, 73, Old Broad-street, and to the Office of the Company, 7, Lothbury.

E. J. MORTIN, Sec.

STIRLING'S BELVEDERE SLATE WORKS, Belvedere-road, Lambeth.—A reduced list of prices of the best WELCH SLATE SLABS, pinned both faces, will be sent on application (post paid) being made, and inclosing a postage stamp. The prices are under those advertised for inferior slates.

THE PIMLICO SLATE WORKS.—Patronised by Royalty, the Heads of the Nobility, the Clergy, Architects of Eminence, Builders, Railway Contractors, and the Public generally.—MAGNUS'S ENAMELLED SLATE (notwithstanding the vile imitations and infringements of his patent that are attempted) continues to grow in favour with the public, being handsomer, more durable, and very much cheaper than marble.—Price lists sent to any part of the kingdom gratis, and a book of drawings sent postage free on receipt of 5s. in postage stamps. Cisterns, Pillars, Dairy and Larder Shelves, Wine Cellar Fittings, Slabs, and every variety of plain Slate Work, at prices that defy competition.—69 and 70, Upper Belgrave-place.

MARKET WHARF, REGENT'S-PARK BASIN.—MARTIN and WOOD solicit the attention of Builders, Masons, and others, to their stock of Portland, York, and Derby Stone; also Bangor Slates, Lime, Cement, Plaster, Bricks, Tiles, Laths, Fire-goods, Pipe-clays, &c. sold at the lowest possible prices for Cash. Portland Head stones, Ledgers, Steps, Landings, &c., cut to order on the shortest notice. Turpaulings let on hire. A Stock of Northen's Drain Pipes, Syphons, &c. always on hand. Mortar, Lime and Hair, Pine Stuff, &c. Prompt attention paid to country orders.

BATH STONE.—RANDELL and SAUNDERS, Quarrymen, Bath, have appointed MARTIN and WOOD their sole agents in London. M. and W. beg to inform Architects, Masons, Builders, &c., that a large assortment of the much approved CORSHAM DOWN and other BATH STONE will always be kept at the Depot, opposite the Great Western Railway Station, Paddington. Orders will also be received at Market Wharf, Regent's-park Basin.

BATH STONE DEPOT, Great Western Railway Station, Paddington.—EDWARD PLURSTER respectfully informs Builders, Masons, and others, that he continues to supply the Box hill Ground Stone, Corshamdown, Combedown, and Farleighdown Stone, of the best quality, and at the lowest prices. Painswick Stone in blocks and slabs of any thickness always on hand.—N.B. Stone and other goods landed and carted.

CAEN STONE.—P. FOUCARD, Quai des Abattoirs, Caen (propriétaire de Carrières à Allemagne), offers CAEN STONE guaranteed from the first quarries at Allemagne, delivered to vessels or waggons free of expenses, from the depôt at the Whitby and Scotch Wharf, 14, Fore-street, Limehouse. Contracts taken for any quantities.—Cargoes shipped to order, from Caen, to any part of the coast.—Apply to P. FOUCARD, at the Office, 20, Mincing-street, Borough Market; or to Mr. H. WEBSTER, at the Wharf.—Samples to be seen, and references to be had, at Mr. MARSH'S, No. 1, Charlotte-row, near the Mansion House.

TAYLOR and CO.'s "EUSTON" PAVEMENT.—The durability and safety of this Pavement for Streets is generally admitted, and the ornamental character imparted by the arrangement of the small stones particularly adapts it for carriage-drives, court-yards, stabling, &c. Specimens may be seen at the Gateways of Hyde Park Corner, Albert Gate, and Stanhope Gate, and also at the Euston Station of the London and North-Western Railway.—(Temporary Offices), 1, Chapel-place, Duke-street, Westminster.

PAVING, 2s. 9d. PER SQUARE YARD Basements, Foot-walks, Malt-houses, Corn Stores, Floors of Warehouses, and every description of Pavement laid down at the above low prices, and the work guaranteed.—Apply to JOHN PILKINGTON, PHŒNICEAUS BITUMEN PAVEMENT OFFICE, 14, JOHN-STREET, ADELPHI.—N.B. Country Agents and Railway Engineers and Contractors supplied with the best bitumen for covering bridges and arches.

WHITE AND ORNAMENTAL — BROWN LAVA

PATENT METALLIC LAVA, Manufactured only by

Messrs. ORSI and ARMANI,

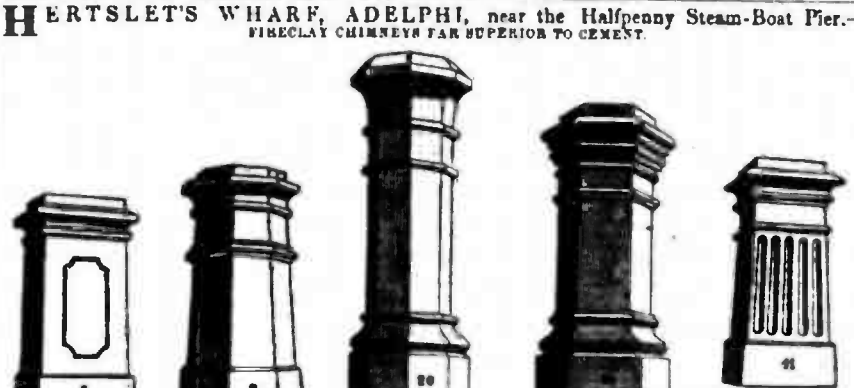
For the INTERIOR of CHURCHES, MUSEUMS, HALLS, VESTIBULES, CONSERVATORIES, &c. &c.; for Foot Pavement, Flooring, Covering Railway Arches, Terraces, Roofs, &c. &c.

SAMPLES LAY FOR INSPECTION. List of Prices, and every Particular, may be obtained at the Office, 4, Guildhall Chambers, Basinghall-street, City; and at the Office of "The Builder."

IMPORTANT TO OIL AND RAILWAY GREASE MERCHANTS AND FACTORS.

FOR SALE, at the Works at Weymouth, or may be delivered to any part of the kingdom, the superior produce by distillation of BITUMINOUS SHALE, or MILLSTONE GRIT, "LIQUID BITUMEN," containing 1st, a Volatile Oil, or Mineral Spirit; 2nd, an Oil of a greater density; 3rd, a Fatty Mineral Oil; 4th, Paraffine; 5th, Grease, slightly alkaline; 6th, Tar. The Volatile Oil, or Mineral Spirit, is admirably adapted as a solvent, and may be used for all purposes to which the most highly rectified spirit of turpentine is employed, or may be used for spirit and camphine lamps. The second oil, not so very volatile, will dissolve in any proportion with seed or fish oils, of which it considerably augments their illuminating power, and prevents their becoming rancid. The third is admirably adapted for lubricating machinery, and contains—the 4th, Paraffine, which is easily obtained by crystallisation, and requiring but little treatment to make excellent candles. The 5th, Grease, superior to animal oil or tar for the use of carriages. The 6th, Tar, perfectly black, very viscative, and which may be used economically for all purposes of varnish, and where mineral tar is employed.—Any further information may be obtained either of Mr. W. C. HOMERSHAM, Schime Works, Weymouth; or of Mr. C. F. CHEFFINS, 11, Southampton-buildings, Chancery-lane, London.

HERTSLET'S WHARF, ADELPHI, near the Halfpenny Steam-Boat Pier.— FIRECLAY CHIMNEYS FAR SUPERIOR TO CEMENT.



Price	2s. 6d.	3s. 6d.	7s. 6d.	9s. 9d.	1l. 9s.
Height:	2 ft. 6 in.	3 ft. 9 in.	4 ft.	3 ft. 4 in.	3 ft. 6 in.

N.B.—Upwards of Thirty other Patterns, at proportionate prices, from 2s. 3d. to 35s.

FIRE-BRICKS, best quality, 45s. per 1,000. Certified by Dr. URE, to be superior to Stourbridge.

10 per cent off stock at 45s. per 1,000

PATENT HOLLOW BRICKS, 45s. per 1,000, very superior.

PATENT DOUBLE-SOCKET JOINTS FOR PIPES, &c.

FIRE-LUMPS at very low rates.
